 - ALC (Alternative Learning Centers) courses allow students the opportunity to work on the math they need to work on for credit (but not for pre-requisites).
 - AMP (Accelerated Math Placement) allows students to review material and gives them the chance to take the placement exam again for (possibly) higher placement.

The Future of the Math SAC

While Math in Context I is envisioned as the general entry course, a basic arithmetic course would still be needed as an entry course and as a supplemental course for some students enrolled in Math in Context I
